TO WHOM SO EVER IT MAY CONCERN

I am delighted to write this letter of recommendation for **Ms. Amara Jain**, a Grade 12 student at The Shri Ram School, Moulisari. In the midst of her academic term at school, Amara dedicated 15 hours per week, pursuing an online internship with us at Momentum India from July 8th, 2024, to July 20th 2024.

As the Co-founder & CEO of Momentum India, I had the privilege of witnessing Amara's remarkable talents and passion for driving positive change. She was an integral part of our five-member team **that worked on identifying sustainability solutions towards waste management for Amazon India**, where she showcased her outstanding research skills and work ethic. Amara's ability to analyse complex information and present it clearly in insightful reports, demonstrates her intellectual depth and attention to detail. For instance, she thoroughly investigated the amount of waste generated daily and prepared a detailed report on the waste management capacity of the facility as well as areas for improvements. She also showed outstanding research skills by exploring various waste management rules, best practices and technologies. This highlights her potential to lead and innovate in the sustainability field.

Moreover, under the guidance of our Vice President of Sustainability - Ms. Prarthana Borah, Amara exhibited tremendous maturity and determination. She is a quick learner, takes feedback constructively and consciously works towards it. Her ability to take initiative along with her collaborative disposition supplemented the team dynamic, creating an environment that encouraged innovation and growth.

Amara's steadfast commitment to sustainability in business, particularly given her age, is commendable. Amara stressed upon the importance of environmental care, social issues, their complexity, and impact, coupled by her own 'out of the box thinking' which empowered her to look at the larger picture along with the minute detailing to find solutions to any problem or situation.

In view of Amara's exceptional intellect, dedication, and strong commitment to sustainability in industrial processes, I am certain she will be a versatile young leader, one who will undoubtedly make a positive impact on society. Should you require additional information, please feel free to reach out to me.

Warm regards,

Rohan Oberoi
